

## Gorran School

### Our 'Local Offer' for Special Educational Needs and Disability (SEND)

Gorran School is a vibrant, active and happy primary school which aims to develop each individual in a caring, family atmosphere. The children, staff and parents are extremely proud of our school and we aim to be inclusive of all children whatever needs they may have.

The facilities we have and the education we provide are tailored to meet individual needs both inside and outside of the classroom environment. Staff at Gorran are all trained to cater for the needs of the children in their care and many staff have had additional training specific to individual children. We are committed to narrowing the gap between SEND and non-SEND pupils. We do this through a variety of different provisions which may include short-term specific interventions, 1:1 sessions, home-school interventions, other learning interventions developed on an individual need basis as well as support from external agencies where appropriate. Every child at Gorran has the opportunity to follow all subjects in the Primary Curriculum and / or access all areas of learning in the Early Years Foundation Stage, the planning and delivery of which is differentiated by our talented team of teachers and their assistants.

Our Special Educational Needs and Disability Coordinator is Katie Rawlings (NASENCo) accredited and our Governor who has responsibility for SEND is Karen Wheelley.

11. This is how we:

a. **Assess and review your children's progress towards outcomes**

We assess children's progress towards the outcomes on their Individual Education Plan (IEP) termly. We may formally assess targets or record how we feel they have progressed towards each outcome. We evaluate each child's IEP and write new targets in conjunction with the child and their parents / carers termly, although we will look at targets every half term and adapt / amend if necessary. In addition to this, every Monday morning individual class teachers will meet with their teaching assistants to discuss IEP targets and plan provision for the week ahead.

b. **Evaluate the effectiveness of our provision for children with SEND**

We evaluate the effectiveness of our provision for children with SEND by regularly tracking progress of children whilst undertaking an intervention, for example, and then carefully monitoring if that progress is maintained once the intervention has finished. If the support we are providing for a child does not seem to be effective then we will look at alternative provision and change accordingly. This applies to a wide variety of provision, whether it is an intervention group, in-class support or activities advised by external professionals. We also liaise with external professionals to ensure that any provision appearing to be ineffective is evaluated and changed to support the child.

c. **Handle complaints about the provision made at school**

So far we have not had any complaints about the provision made at Gorran School for children with SEND. We believe that this is due to the regular contact that we have with parents / carers and the high levels of involvement that parents / carers have in their child's provision. We feel strongly that parents / carers should be actively involved with planning the best and most appropriate provision for their child so that there are 'no surprises' for anyone.

If a complaint was to be made about our provision we would direct parents / carers to follow the complaints procedure detailed in the school prospectus.

This 'Gorran School Offer' has been written by Katie Rawlings (SENDCo) in consultation with the staff, parents and governors of Gorran School.
